Encouraging Women Entrepreneurship- Current Policies and Programmes

Women entrepreneurs are critical to the economic growth of any country, which can be realized only by encouraging equality and enhancing opportunity for women in all walks of life. The inequalities and a huge gender gap persist in business in India, even though it has been well established through various research studies, worldwide, that female founded and co-founded enterprises perform better than those managed with all male(s). Women secure higher than the Men in key skills related to a business enterprise e.g. team work, problem solving and orientation. It was the realization of immense untapped women’s potential that GOI has taken a large number of policy initiatives for mainstreaming women and to provide them a level playing field so that they could put their best in the country’s economic growth. Women in India run around 8 million enterprises constituting about 14 per cent of the total entrepreneurs. The figure may not encouraging, when we see that women constitute 48.95% of the population but the situation is in a way promising as 35.5% of start ups have women as Directors and 58% of entrepreneurs started their business at the age of 20 to 30 years. As such, any success to increase the number of women led enterprises or for increase in their productivity has a direct bearing on the country’s economy.

2. Realizing the above, the Ministry of Women and Child Welfare brought out the draft National Policy for Women (2016), which envisaged that all important micro level policies needed to be engendered and mainstreamed to address women’s concern for being an equal partner in the country’s development. The draft includes large number of policy statements, for raising the visibility of women in economy, which inter-alia includes entrepreneurship development, training and skill upgradation, support to women farmers in their livelihood etc. MWCD has been working to remove all impediments for women to become a successful entrepreneur and to create conducive environment for providing support in different areas, where they have been facing difficulties due to explicit reasons e.g. access to finance, access to latest skills and technology, access to market and business skills. A large number of programmes has been undertaken by different Ministries of GOI for encouraging entrepreneurship in the county wherein care has been taken to ensure adequate participation and share of Women, by way of special provisions and added incentives for them.

3. Start up India Programme was launched in February 2016 and over the period it had become the 3rd largest start-up ecosystem in the world, providing handholding, funding support, incentives, industry-academic partnership to provide conducive environment for start ups in the Country. A corpus fund of 10,000 crores has been earmarked for the programme to build a strong ecosystem by nurturing innovation and start-ups. 10% of the corpus fund is reserved for women led start-ups. This would act as catalyst in creating an enabling environment for innovations start-ups to flourish, having a multiple effect on employment generation and social transformation leading to growth.
